

# Subject Index

## Volume 60

**Absorptiometry**  
bone mineral density, size-related artifact, 837  
dual-energy x-ray, body composition measurements in children (pig model), 660  
dual-photon, body mass index and percent body fat, white vs Asian adults, 23

**Absorption**  
calcium, in prepubertal/pubertal girls, dietary calcium intake and, 739  
dietary stearic and palmitic acids, 1023S  
effect of alginic acid on nutrient absorption and sterol excretion in ileostomy subjects, 751  
fats, triglyceride structure and, 1002S  
glucose, glucose diffusion as rate-limiting step (*letter*), 976  
iron, inhibitory effect of soybean-protein-related moiety, 567  
lactose tolerance and absorption, in short-bowel syndrome, 926  
lymphatic absorption of enterally fed structured triacylglycerol vs physical mix (dog), 518  
manganese, gender and, 949  
stearic acid (animals), 997S  
vitamin A, dietary fat emulsions and, 374  
zinc and calcium, effect of sodium iron EDTA food fortification, 231

**Adipose tissue. *See also* Body fat**  
fish-oil n-3 polyunsaturated fatty acid storage in and mobilization from (rat), 72  
mobilization of visceral and subcutaneous adipose tissue in response to energy restriction and exercise, 695  
subcutaneous, site-specific differences in fatty acid composition, 725

**Adolescence**  
obesity, body-fat distribution and changes in atherogenic risk factors in obese adolescent girls during weight reduction, 54  
pregnancy, maternal growth and maternal-fetal competition for nutrients, 183

**Adrenergic agents, in obesity**, 153

**Age/aging. *See also* Geriatric population**  
body composition changes in early postmenopausal women, 843  
dietary intakes and plasma concentrations of vitamins A and E in relation to, 176  
parathyroid response to single oral dose of calcium, 403  
selenium status and, 510  
vitamin B-6 bioavailability and, 68

**Alcohol ingestion**  
effect on blood antioxidant nutrients and oxidative stress indicators, 255  
serum gamma-glutamyl transpeptidase activity and, carbohydrate-related regulation, 87

**Alcoholism, liver disease, alcohol-β-carotene interactions**, 430

**Alfalfa, alfalfa, vitamin E, and autoimmune disorders (*letter*)**, 639

**Alginic acid, effect on nutrient absorption and sterol excretion in ileostomy subjects**, 751

**Allosthesia, effect of energy density of meal on gastric emptying and satiety**, 307

**American Society for Clinical Nutrition, 1994 annual meeting**

**member award recipients**, 610  
**President's address: nutrition, politics, and health care reform**, 612

**Amino acids. *See also* specific amino acids**  
branched-chain, effect of parenteral nutrition on liquid gastric emptying and, 244  
elimination, in renal failure, 418  
indispensable, phenylalanine and tyrosine kinetics in adults, 79  
methionine and cysteine kinetics at different cysteine intakes, 525  
plasma proline and leucine kinetics in response to proline-free diet, 207  
**requirements**  
FAO/WHO/UNU pattern vs MIT pattern, 79  
methionine and cysteine kinetics at different cysteine intakes, 525  
Amylase-rich flours, weaning-food viscosity and energy density, effects on ad libitum consumption and energy intakes in Jamaican children, 465

**Anemia**  
in pregnancy, iron-folate supplementation and antihelminthic therapy in Sri Lanka plantation workers, 286  
of prematurity, folate and vitamin B-12 supplementation and, 930  
race-specific anemia criteria for screening iron deficiency, 117

**Anorexia nervosa**  
protein repletion and treatment in (*letter*), 794  
weight cycling and effects of fenfluramine on susceptibility to activity-based anorexia (rat), 494  
weight gain in, resting metabolic rate during, 666

**Anthelminthic therapy, iron-folate supplementation plus, anemia of pregnancy in Sri Lanka plantation workers**, 286

**Anthropometry**  
body composition in Colombian women, 279  
body mass index and percent body fat, white vs Asian adults, 23  
nutritional status in liver disease, 269

**Antioxidants. *See also* specific vitamins**  
antioxidants in food—another look (*letter*), 456  
antioxidant supplement myth, 157  
dietary intake and plasma carotenoids in premenopausal women, 223  
dietary intakes and plasma concentrations of vitamins A and E in relation to age, gender, and smoking, 176  
effect of alcohol consumption on blood antioxidant nutrients and oxidative stress indicators, 255  
low-density lipoprotein oxidation and, 1010S  
plasma chain-breaking, postnatal changes in, formula vs breast-feeding, 900

**Apolipoprotein(s)**  
apolipoprotein-specific high-density lipoprotein particles, low-fat diet and, 911

**plasma**  
dietary intake and, 765  
in healthy smokers, β-carotene supplementation and, 730

**Appetite**  
alterations in voluntary food intake in response to isoenergetic manipulation of glycogen stores, 534

in bulimia nervosa, eating behavior and, 864  
 suppression, in parenteral nutrition, 244

Arachidonic acid, fatty acid composition of brain, retina, and erythrocytes in breast- and formula-fed infants, 189

Ascorbic acid. *See also* Vitamin C  
 megadoses, effect on insulin response to glucose challenge in normoglycemic subjects, 735  
 plasma, in alcoholics, before and after withdrawal, 255

Aspirin, in caffeine-induced hypercalciuria, 362

Atherosclerosis/atherosclerosis  
 intraabdominal fat and postprandial lipemia, 586  
 low-density lipoprotein oxidation, effects of antioxidants and fatty acids, 1010S

risk factors  
 in obese adolescent girls during weight reduction, body-fat distribution and, 54  
 plasma vitamin C level and, 100  
 vitamin E supplementation, lipid peroxidation, and platelet counts in smokers, 383

stearic acid metabolism and (animals), 997S

Autoimmune disease, alfalfa, vitamin E, and autoimmune disorders (*letter*), 639

Balance studies, calcium requirement, reappraisal of determination methods, 944

Beef/beef tallow, in cholesterol-lowering diet, 1044S

Behavior  
 neonatal habituation behavior, maternal zinc nutriture and, 782  
 preterm infants discharged from newborn ICU, effects of human milk or formula feeding, 710  
 zinc deprivation and behavioral performance of prepubertal monkeys, 238

Bile acids, effect of alginate on nutrient absorption and sterol excretion in ileostomy subjects, 751

Biliopancreatic diversion, glucose-induced thermogenesis in postbese women who have undergone biliopancreatic diversion, 320

Bilirubin, plasma, postnatal changes in, formula vs breast-feeding, 900

Bioelectrical impedance analysis (BIA), estimation of body water compartments, 159

Bioelectrical spectroscopy, estimation of body water compartments, 159

Birth weight  
 effect of maternal growth and energy intake on infant birth weight in adolescent pregnancy, 183  
 maternal zinc nutriture and, 782

Blood pressure, magnesium supplementation and, 129

Body composition  
 adolescent pregnancy, maternal growth and maternal-fetal competition for nutrients, 183  
 changes in early postmenopausal women, age- or menopause-related, 843  
 effect of isoenergetic low-fat diets on energy metabolism in lean and obese women, 470  
 estimation from anthropometric variables in Colombian women, 279  
 estimation of body water compartments, validation of BIA measurement, 159  
 measurements in children, accuracy of dual-energy x-ray absorptiometry (pig model), 660  
 recovery after massive overfeeding, 861  
 resistance training in older adults and, 167  
 weight maintenance without weight-loss training, 688

Body fat  
 distribution  
 atherogenic risk factors in obese adolescent girls during weight reduction and, 54  
 changes in early postmenopausal women, age- or menopause-related, 843  
 effect of isoenergetic low-fat diets on energy metabolism in lean and obese women, 470  
 intraabdominal fat and postprandial lipemia, 586  
 mobilization of visceral and subcutaneous adipose tissue in response to energy restriction and exercise, 695  
 energy expenditure and, 676  
 estimation from anthropometric variables in Colombian women, 279  
 measurements in children, accuracy of dual-energy x-ray absorptiometry (pig model), 660

recovery after massive overfeeding, 861  
 relation to body mass index, white vs Asian adults, 23  
 visceral fat, metabolic disturbances, 682

Body mass, set point, 861

Body mass index  
 childhood, energy intake, physical activity, and body fat, 15  
 relation to percent body fat, white vs Asian adults, 23

Body water, estimation of body water compartments, validation of BIA measurement, 159

Body weight. *See also* Weight gain; Weight loss  
 recovery after massive overfeeding, 861  
 total daily energy expenditure and, 676

Bone  
 formation and resorption, 831  
 nutritional requirements in space, 801S

Bone density  
 calcium, protein, and phosphorus intakes and (*letter*), 455  
 calcium supplementation and, in Chinese children with low calcium intakes, 744

Bone loss. *See* Osteoporosis

Bone mass, changes in early postmenopausal women, age- or menopause-related, 843

Bone mineral content  
 calcium supplementation and, in Chinese children with low calcium intakes, 744  
 measurements in children, accuracy of dual-energy x-ray absorptiometry (pig model), 660

Bone mineral density  
 absorptiometric assessment, size-related artifact, 837  
 in postmenopausal women, caffeine consumption and, 573

Book reviews

Seasonality and Human Ecology: 35th Symposium Volume, Society for the Study of Human Biology, SJ Ulijaszek & SS Strickland (eds.), 797

Textbook of Pediatric Nutrition, 2nd ed., RM Suskind & L Lewinter-Suskind, 461

Use and Regulation of Vitamin and Mineral Supplements. A Study with Policy Recommendations, J Schrijver, et al (eds.), 462

Vitamin A in Health and Disease, R Blomhoff, 796

Brain, fatty acid composition, breast- vs formula-fed infants, 189

Breast cancer, risk factors, soy-protein intake and, 333

Breast-feeding

- development of visual acuity in relation to plasma and erythrocyte n-6 and n-3 fatty acids in healthy term infants, 347
- vitamin B-6 status and, 907

Bromide dilution, validation of BIA estimation of body water compartments, 159

Brush border membranes, intestinal, retinyl ester hydrolytic activity, 111

Buccal mucosa, folate and vitamin B-12 concentrations, smoking and, 559

Bulimia nervosa

- eating behavior in, 864
- resting metabolic rate in, 327

Burn injury, nutritional support, protein-sparing effects of fish oil-containing structured lipid in (rat), 216

Caffeine

- caffeine consumption, calcium intake, and bone loss in postmenopausal women, 573
- hypercalcuria and, prostaglandin in, 362
- thermogenic effects of nicotine and caffeine during light physical activity, 312

Calcium

- absorption and retention
- effect of sodium iron EDTA food fortification, 231
- in prepubertal/pubertal girls, 739
- dietary
- bone density and (*letter*), 455
- caffeine consumption, calcium intake, and bone loss in postmenopausal women, 573
- osteoporosis and, 831
- plasma lipids and (*letter*), 975
- requirement, reappraisal of determination methods, 944
- supplementation
- effect on bone mineral accretion in Chinese children with low calcium intakes, 744
- in men, 965
- parathyroid response to single oral dose of calcium, age and, 403

Calcium citrate, supplementation, effect on urinary calcium oxalate saturation in female stone formers, implications for osteoporosis therapy, 592

Calcium oxalate stones, dietary hypercalcuria in, 424

Calorimetry

- indirect
- glucose-induced thermogenesis in postobese women who have undergone biliopancreatic diversion, 320
- metabolic adaptation in Gambian men with low body mass index, 37
- thermogenic effects of nicotine and caffeine during light physical activity, 312
- whole-body, alterations in fuel selection and voluntary food intake in response to isoenergetic manipulation of glycogen stores, 534

Canavanine, alfalfa, vitamin E, and autoimmune disorders (*letter*), 639

Carbohydrate, dietary

- alterations in intake and oxidation in response to isoenergetic manipulation of glycogen stores, 534
- effect of menstrual cycle hormones, 895
- effect on blood lipids, 1017S
- effects of high-carbohydrate preloads on subsequent food intake, hunger, and satiety, 476
- ethanol-induced serum gamma-glutamyl transpeptidase activity and, 87
- psychological and metabolic effects during low-energy diet, 488

Cardiovascular disease

- effect of vitamin E supplementation on lipid peroxidation and platelet counts, 383
- stearic acid and, 1071S
- Carnitine metabolism, myocardial, after heart transplantation, 414
- $\alpha$ -Carotene, serum
- $\beta$ -carotene supplementation and, 936
- seasonal and gender-related variations, 106
- $\beta$ -Carotene
- alcohol interaction with, in alcoholic liver disease, 430
- effect on CD4/CD8 T cells, 597
- immune response and, 969
- plasma, dietary intakes and plasma concentrations in relation to age, gender, and smoking, 176
- serum, seasonal and gender-related variations, 106
- supplementation
- effect on plasma lipoproteins in healthy smokers, 730
- serum carotenoid levels and, 936

Carotenoids

- dietary intake and plasma carotenoids in premenopausal women, 223
- serum
- $\beta$ -carotene supplementation and, 936
- seasonal and gender-related variations, 106

Cell proliferation,  $\beta$ -carotene and, 969

Cellular immunity

- $\beta$ -carotene and lymphocyte subsets, 597, 969
- micronutrient supplementation and delayed hypersensitivity skin test responses in elderly people and, 437
- T lymphocyte immaturity and thymic dysfunction in protein-energy malnutrition, 274

CELSS (controlled ecological life-support system), 820S

Children. *See* Pediatric population

Chocolate

- dietary intake, patterns of consumption, 1060S
- feeding studies, plasma lipid effects of stearic acid, 1029S
- flavor and texture, 1065S, 1068S
- plasma cholesterol response to milk chocolate bar substituted for high-carbohydrate snack, 1037S
- sensory properties and their development, 1068S

Cholelithiasis, weight loss on 800-kcal formula diet and, 249

Cholesterol

- effect of alginate on nutrient absorption and sterol excretion in ileostomy subjects, 751
- high-density-lipoprotein (HDL)
- dietary intake and, 765
- plasma level
- $\beta$ -carotene supplementation in healthy smokers and, 730
- effect of myristic acid vs palmitic acid, 919
- plasma vitamin C level and, 100
- response to milk chocolate bar substituted for high-carbohydrate snack, 1037S

low-density-lipoprotein (LDL)

- dietary intake and, 765
- effects of cocoa butter, 1014S
- long-chain fatty acids and, 991S
- response to high-stearic-acid diet, 1043S
- response to milk chocolate bar substituted for high-carbohydrate snack, 1037S
- stearic acid and, 986S
- chocolate feeding studies, 1029S
- metabolism, stearic acid vs oleic acid vs palmitic acid, 986S
- plasma, dietary soy protein and (*letter*), 300
- serum
- effects of fats and fatty acids, 1017S
- postprandial response to dietary fat emulsions, 374

total, stearic acid and

- chocolate feeding studies, 1029S
- response to high-stearic-acid diet, 1043S
- response to milk chocolate bar substituted for high-carbohydrate snack, 1037S

Cholesterol ester hydrolase, intestinal brush border membranes, 111

Coagulation

- effect of myristic acid vs palmitic acid, 919
- stearic acid and, 1050S

Cobalamin deficiency, prevalence in elderly population, 2

Cocoa butter

- chocolate production, 1065S
- effect on serum lipids, 1014S

triclyceride structure and fat absorption, 1002S  
 Colorectal adenoma,  $\beta$ -carotene supplementation in, 936  
 Compartmental modeling, manganese absorption and retention, gender and, 949  
 Conjunctival impression cytology, vitamin A status, 293  
 in Indonesian children, 136  
 Controlled ecological life-support system, 820S  
 Coronary artery disease, high-cholesterol-related, iron and (*letter*), 299  
 Crohn's disease, weight loss in, decreased food intake and, 775  
 $\beta$ -Cryptoxanthin, serum  
 $\beta$ -carotene supplementation and, 936  
 seasonal and gender-related variations, 106  
 Cysteine, kinetics at different cystine intakes, 525  
 Cystine, dietary, sparing effect on methionine requirement in adults, 525

Daidzein, urinary excretion of, flaxseed consumption and, 122  
 Desaturation, dietary stearic and palmitic acids, 1023S  
 Deuterium dilution, validation of BIA estimation of body water compartments, 159  
 Dexfenfluramine, psychological and metabolic effects during low-energy diet, 488  
 Diabetes mellitus, insulin-dependent  
 dietary protein restriction and progression of overt diabetic nephropathy, 579  
 lipid and fatty acid composition of breast milk, 353  
 Diet  
 cholesterol-lowering, beef and beef tallow in, 1044S  
 dietary fats and plasma lipoprotein profile, 765  
 diverticular disease risk and, 757  
 flaxseed consumption and urinary excretion of lignans and isoflavonoids, 122  
 high-fat, obesity as an adaptation to a high-fat diet (*letter*), 640  
 high-stearic-acid diet, LDL cholesterol response, 1043S  
 hypercalcium and, in calcium oxalate nephrolithiasis, 424  
 isoenenergetic, low-fat, effects on energy metabolism in lean and obese women, 470  
 low-energy, psychological and metabolic effects of dietary carbohydrates and dexfenfluramine during, 488  
 low-fat, apolipoprotein-specific high-density lipoprotein particles and, 911  
 low-insulin-response, energy-restricted, effect on weight loss and plasma insulin in hyperinsulinemic obese females, 48  
 mobilization of visceral and subcutaneous adipose tissue in response to energy restriction and exercise, 695  
 proline-free, plasma proline and leucine kinetics, 207  
 protein-restricted, progression of overt diabetic nephropathy and, 579  
 reduced-fat, plasma lipid effects of three vegetable oils, 195  
 soy protein, biological effects on hormonal status of premenopausal women, 333  
 very-low-energy, loss of fat-free mass during, degree of obesity and, 874  
 weaning-food viscosity and energy density, effects on ad libitum consumption and energy intakes in Jamaican children, 465  
 zinc-deficient, behavioral performance of prepubertal monkeys, 238

Dietary intake, effect of menstrual cycle hormones, 895  
 Dietary restraint, vegetarian vs nonvegetarian diet, 887  
 Diet record  
 dietary intake and plasma carotenoids in premenopausal women, 223  
 estimation of energy intake by highly educated, nonobese adults, 855  
 1,25-Dihydroxycholecalciferol, for psoriasis, 619  
 Diverticular disease, risk, diet and, 757  
 DNA, small intestine, effect of natural suckling vs formula feeding on intestinal mucosal growth (*Faggle*), 879  
 Docosahexaenoic acid  
 development of visual acuity in relation to plasma and erythrocyte n-6 and n-3 fatty acids in healthy term infants, 347  
 fatty acid composition of brain, retina, and erythrocytes in breast- and formula-fed infants, 189  
 storage in and mobilization from adipose tissue (rat), 72

 platelet responses to, 1059S  
 low-density lipoprotein oxidation and, 1010S  
 metabolism, atherosclerosis/atherosclerosis and (animals), 997S

plasma cholesterol response to milk chocolate bar substituted for high-carbohydrate snack, 1037S

plasma lipid effects, chocolate feeding studies, 1029S  
 regulatory history, 983S

Structured lipid, protein-sparing effects of fish oil-containing structured lipid in burn injury (rat), 216

Stunting  
 growth retardation in children on long-term TPN, 408  
 vitamin A deficiency and, 293

Sugar, dietary, ethanol-induced serum gamma-glutamyl transpeptidase activity and, 87

Sulphydryl groups, plasma, postnatal changes in, formula vs breast-feeding, 900

Sulfur amino acid metabolism, methionine and cysteine kinetics at different cystine intakes, 525

Sunlight exposure, cutaneous vitamin D production, 619

Superoxide dismutase, erythrocyte, aging and, 510

Suprachiasmatic nucleus, dynorphins, after fenfluramine and exposure to activity-based anorexia (rat), 494

Supraoptic nucleus, dynorphins, after fenfluramine and exposure to activity-based anorexia (rat), 494

Tamoxifen, 333

Taurine, supplementation, in trauma patients on parenteral nutrition, 203

Theophylline, side effects, vitamin B-6 supplementation and, 93

Thermogenesis  
 diet-induced, reproducible measurement, 849  
 glucose-induced, in postobese women who have undergone biliopancreatic diversion, 320  
 resting metabolic rate during weight gain in anorexia nervosa, 666  
 thermogenic effects of nicotine and caffeine during light physical activity, 312

Thrombosis  
 dietary saturated fatty acids and, 1059S  
 stearic acid and, 1050S

Thromboxane A<sub>2</sub>, biosynthesis  
 dietary stearic acid and, 1054S  
 salmon-rich diet and, 369

Thymus, T lymphocyte immaturity and thymic dysfunction in protein-energy malnutrition, 274

$\alpha$ -Tocopherol  
 bioavailability of stereoisomeric forms, 397  
 plasma  
 in alcoholics, before and after withdrawal, 255  
 dietary intakes and plasma concentrations in relation to age, gender, and smoking, 176

serum, seasonal and gender-related variations, 106

Total peroxyl radical trapping capacity. *See* TRAP assay

Transferrin receptor, serum level in Zairean women, iron status and, 603

TRAP assay, postnatal changes in plasma chain-breaking antioxidants, formula vs breast-feeding, 900

Trauma, taurine supplementation in, 203

Tremor, theophylline-induced, vitamin B-6 supplementation and, 93

Triacylglycerol(s)

- adipose tissue, fish-oil n-3 polyunsaturated fatty acid storage in (rat), 72
- lymphatic absorption of enterally fed structured triacylglycerol vs physical mix (dog), 518

Triglyceride(s)

- plasma, effect of myristic acid vs palmitic acid, 919
- postprandial
  - intraabdominal fat and postprandial lipemia, 586
  - response to dietary fat emulsions, 374
- serum, effects of fats and fatty acids, 1017S
- structure, fat absorption and, 1002S

Tyrosine, kinetics, FAO/WHO/UNU diet vs MIT diet, 79

Urea, production and salvage during pregnancy, 341

Uric acid, plasma, postnatal changes in, formula vs breast-feeding, 900

Urine

- eicosanoid excretion, dietary stearic acid and, 1054S
- excretion of lignans and isoflavonoids, dietary flaxseed and, 122
- vitamin A excretion during acute infection, 388

Vegetarianism

- bioregenerative life-support systems, 820S
- dietary restraint and subclinical ovulatory disturbances in, 887

Visual acuity, preferential looking acuity, development in relation to plasma and erythrocyte n-6 and n-3 fatty acids in healthy term infants, 347

Vitamin(s), supplementation, delayed hypersensitivity skin test responses in elderly people and, 437

Vitamin A

- absorption, dietary fat emulsions and, 374
- dietary intakes and plasma concentrations in relation to age, gender, and smoking, 176
- metabolism, retinyl ester hydrolytic activity of intestinal brush border membranes, 111
- nutritional status
  - assessment techniques
    - modified-relative-dose-response (MRDR) test in lactating, non-pregnant Indonesian women, 142
    - modified-relative-dose-response (MRDR) test vs conjunctival impression cytology in Indonesian children, 136
    - conjunctival impression cytology and, 293
  - plasma, aging and, 510
  - urinary excretion during acute infection, 388

Vitamin A deficiency, risk, conjunctival impression cytology and, 293

Vitamin B-6. *See also* Pyridoxal 5'-phosphate

- bioavailability, age and, 68
- nutritional status
  - formula vs breast-feeding, 907
  - in school-age patients with phenylketonuria, 262
  - supplementation, in theophylline therapy, 93

Vitamin B-12

- circulation and tissue levels, smoking and, 559
- recommended dietary allowance, elderly population, 12
- supplementation, anemia of prematurity and, 930

Vitamin B-12 deficiency, in elderly population, 2

diagnosis and vitamin B-12 requirements, 12

Vitamin C. *See also* Ascorbic acid

- plasma
  - plasma HDL-cholesterol and, 100
  - postnatal changes in, formula vs breast-feeding, 900
- supplementation, chronic, effect on glucose tolerance and insulin response of healthy, normoglycemic subjects after glucose challenge, 735

Vitamin D, supplementation

- during infancy, 393
- in osteoporosis, 831

Vitamin D deficiency, in elderly people, 619

Vitamin E. *See also*  $\alpha$ -Tocopherol

- alfalfa, vitamin E, and autoimmune disorders (*letter*), 639
- dietary intakes and plasma concentrations in relation to age, gender, and smoking, 176
- plasma
  - aging and, 510
  - postnatal changes in, formula vs breast-feeding, 900
- supplementation
  - in geriatric population, safety of high-dose, short-term supplementation, 704
  - lipid peroxidation and platelet counts and, 383

Water recycling, in space, 825S

Weaning, weaning-food viscosity and energy density, effects on ad libitum consumption and energy intakes in Jamaican children, 465

Weight cycling

- weight cycling and effects of fenfluramine on susceptibility to activity-based anorexia (rat), 494
- weight maintenance in obese subjects without weight-loss training, 688

Weight gain, in anorexia nervosa, resting metabolic rate during, 666

Weight loss

- body-fat distribution and changes in atherogenic risk factors in obese adolescent girls during weight reduction, 54
- in Crohn's disease, decreased food intake and, 775
- drug-induced, 153
- effects of dietary carbohydrates and dexfenfluramine during low-energy diet, 488
- liver-function-test abnormalities and cholelithiasis with weight loss on 800-kcal formula diet, 249
- long-term, effect of pharmacologic agents, 647
  - commentary, 658
- mobilization of visceral and subcutaneous adipose tissue in response to energy restriction and exercise, 695
- response to low-insulin-response, energy-restricted diet in hyperinsulinemic obese females, 48
- very-low-energy diet, degree of obesity and, 874
- weight maintenance without weight-loss training, 688

Yogurt, lactose tolerance and absorption, in short-bowel syndrome, 926

Zeaxanthin, serum

- $\beta$ -carotene supplementation and, 936
- seasonal and gender-related variations, 106

Zinc

- absorption and retention, effect of sodium iron EDTA food fortification, 231
- nutritional status, relation to pregnancy outcome and infant development in Egypt, 782

Zinc deficiency, behavioral performance of prepubertal monkeys, 238
